

ETIREDJERE DEBORAH UFUOMA

Data Analyst | Public Health Scientist

Ibadan, Nigeria | deborahetiredjere@gmail.com | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Data Analyst and Public Health Scientist with a strong foundation in analytical and statistical methods and health research. Currently pursuing an MPH in Medical Demography at the University of Ibadan. Proficient in Excel, Stata, SPSS, SQL and R for data cleaning, analysis, interpretation, and reporting. Experienced in working with demographic and healthcare datasets through academic research and professional roles involving data management, documentation, and reporting.

CORE SKILLS

- Data Cleaning & Validation
- Data Analysis
- Exploratory Data Analysis (EDA)
- Descriptive Statistics
- Inferential Statistics
- Quantitative Research
- Data Interpretation
- Report Writing
- Data Entry & Record Keeping
- Data Visualization

Tools: Excel | Stata | SPSS | SQL | R | Microsoft Office Suite

PROFESSIONAL EXPERIENCE

Research Assistant — University of Ibadan, Nigeria | January 2026 – Present

- Cleaned and validated national demographic health data to ensure data consistency.
- Analyzed data to generate insights on population health in Nigeria.
- Prepared reports and complete data analyses to support health decision-making.
- Documented key information and provided regular updates to fellow research assistants.
- Collaborated with marketing and operations teams to support awareness and health policy initiatives.

Data Operations Assistant — Biyabot Technologies | September 2025 – December 2025

- Maintained large databases while ensuring data quality and confidentiality.
- Assisted in organizing operational data used for customer support reporting.
- Documented customer interactions and tracked recurring service issues.
- Prepared customer documentation, service information, and personalized support materials.
- Generated documentation that supported onboarding and service delivery.

PROJECTS

Fertility Trend Analysis | Tools: Stata, Excel

- Cleaned and managed Nigeria Demographic and Health Survey (NDHS) datasets.
- Conducted descriptive statistical analysis of fertility indicators.
- Examined trends across Nigeria's six geopolitical zones.
- Produced tables and charts for research reporting.
- Interpreted statistical findings to support demographic research.

Health Data Analysis Project | Tools: SPSS, R

- Cleaned health datasets for statistical analysis.
- Performed descriptive and inferential analyses.
- Developed visualizations to communicate findings.
- Prepared written reports summarizing analytical insights.

EDUCATION

MPH (Medical Demography) — University of Ibadan | March 2025 – Present (In-view)

Bachelor of Science (B.Sc.) in Microbiology — University of Ilorin | January 2016 – August 2021

CERTIFICATIONS

- Data Literacy — Jobberman (2022)
- Data Analysis Training Certificate — Techy Jaunt (2025)
- Data Science Training — She Code Africa (2026)
